CANNABMALL 2x2 Complete Grow Tent Kits Hydroponic Systemg **All-in-One Indoor Growing Solution**

The CANNABMALL 2x2 Complete Grow Tent Kit provides everything needed to create a controlled indoor growing environment. Designed for home growers, beginners, and small-scale cultivation projects, this complete package combines efficient lighting, reliable ventilation, and a durable grow tent into one convenient system.

High-Efficiency Full Spectrum LED Grow Light

Equipped with premium Samsung LM301 LEDs and a high-quality driver, the grow light delivers full-spectrum lighting suitable for seedling, vegetative, and flowering stages. The dimmable design allows growers to adjust light intensity according to plant growth requirements while maintaining excellent energy efficiency.

Durable 2x2 Grow Tent

The grow tent features highly reflective Mylar interior walls to maximize light utilization and improve growing performance. Constructed with heavy-duty 600D Oxford fabric, reinforced stitching, and a sturdy metal frame, the tent provides excellent light-proof performance and long-term durability.

Smart Ventilation System

The kit includes a quiet EC inline fan, carbon filter, and flexible ducting to ensure proper airflow, temperature management, and odor control. The integrated ventilation system helps maintain a stable growing environment throughout the cultivation cycle.

Complete Kit – Easy Setup

All components are carefully selected and matched for compatibility, allowing quick installation and simple operation. Ideal for growers looking for a reliable and efficient indoor growing solution without the hassle of sourcing individual components separately.

Applications

- Indoor Growing
- Grow Tent Cultivation
- Hydroponic Systems
- Seedling & Propagation
- Home Grow Setups

The CANNABMALL 2x2 Grow Tent Kit offers a complete, efficient, and user-friendly

solution for achieving healthy plant growth and consistent cultivation results.

Kit Includes:

- 1 × GH1000 Full Spectrum LED Grow Light
- 1 × Grow Tent 2'x2'x4.6' (60x60x140cm/24"x24"x56")
- 1 × 4" Inline Duct Fan with build Carbon filter
- 1 × Flex Air Aluminum Ducting
- 2 × Ducting Clips
- 1 × Timer
- 1 × Temp and Humid monitor
- 2 × 5 Gallon Grow Bags
- 1 × Trellis Plant Netting
- 2 × Adjustable Rope Clip Hanger

GH1000 Full Spectrum Dimmable LED Grow Light	
Energy efficiency (PAR/Watt):	2.7 umol/J
Maximum yield:	2,5 grams/watt
Spectrum:	660nm, 3000K, 5000K and IR 760nm
Veg footprint:	3 × 3 feet
Flowering footprint:	2 × 2 feet
Lifespan:	>50.000 hours
Dimensions:	
Net Weight:	
Replace other red and blue light:	1000W 1200W
Input Voltage:	AC100-277V
Amp:	0.82A @AC120V, 0.42A @AC240V, 0.37A @AC277V
Draw power:	100.5W ± 5%@AC120V, 98.8W ± 5% @
600D Grow Tent	
Tent Size:	2'x2'x4.5' (24"x24"x56" / 60x60x140 cm)
Interior Material:	100% highly reflective mylar - heavy duty, light-tight
Exterior Material:	600D oxford cloth - heavy duty, lightproof
Connector Material:	Sturdy metal
Frame Material:	White paint coated metal frames
Overall Capacity:	
N.W./G.W.:
